and Business

LJUBLJANA, SLOVENIA

EEB Founder

When faced with an ethical dilemma, your decision-making principles can be either the happy medium (not too much, not too little) or the greatest good for the greatest number of people, or perhaps do unto others as you would have them do unto you. But which is right and which is wrong? Is there more than one right answer? European Ethics Bowl is designed to improve your ability to identify and openly discuss ethical issues in a work environment.
